## RECOMMENDATION FOR CHIEF'S COMMENDATION

To: Inspector Trevor Crane, Sergeant Terry Marchand, Detective Constables Dan Hinds, Nelson DasNeves, Meredith Rota, Mark Vandergriendt, Robert McNear and Jeff Teetzel.

### RE: Project FRESH – October, 2018

In October 2018 the Chatham Kent Police Service Intelligence Section started Project "FRESH". The focus of the project was to infiltrate the criminal element involved in drugs and property crimes at specific problem areas identified within Chatham Kent. It was determined that members of the Intelligence Section through the use of undercover operators and human sources developed the most appropriate form of investigation.

As a result of this decision project "FRESH" was initiated. As with any project there is a great deal of work behind the scenes that plays a role in the overall success and safety of the undercover operators. Over the course of approximately four months, undercover operations were conducted which included scripted/planned drug purchases that involved hundreds of investigative hours.

As with any drug investigation there is never any guarantee of success, regardless of how exhaustive the preparations maybe. In this case, the investigators and the investigation were both successful. Over the course of the project there was 6 search warrants executed, 19 arrests, 82 charges and over 3.2 million in Controlled Drugs Seized.

Subsequently, as a result of your excellent teamwork, perseverance and professionalism you are being recognized by way of a **Chief's Commendation**.

The award will be presented to you at the upcoming Police Services Board meeting to be held on Tuesday June 11, 2019 at the Chatham-Kent Police Service Headquarters. I sincerely hope that you will be able to attend the meeting in order that you may be appropriately recognized at that time.

Well done!

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Conn", with a long horizontal flourish extending to the right.

Gary Conn  
Chief of Police

**REPORT OF THE POLICE SERVICE  
TO  
THE CHATHAM-KENT POLICE SERVICES BOARD**

<b>Board Report Number:</b>	<b>4.3 (Regular)</b>
<b>Date of Report:</b>	<b>May 21, 2019</b>
<b>Date of Board Meeting:</b>	<b>June 11, 2019</b>
<b>Reference:</b>	<b>Komutel Incorporated, Next Generation 9-1-1 Solution</b>
<b>Recommendation:</b>	<b>Receive the report for information purposes and authorize partnership with Komutel Incorporated at a total capital cost of \$149,587.04 and a yearly service contract of \$24,698.50 to be funded from Police 911 Evolution Network Reserve</b>

**Background:**

The Canadian Radio-Television and Telecommunications or CRTC, is an independent public authority in charge of regulating and supervising Canadian broadcasting and telecommunications. Their role is to implement laws and regulations in the public's best interest.

The CRTC put forth a regulatory policy and approved standards, which will mandate all telephone service providers (TSP) to establish the following:

- Next Generation 9-1-1 (NG-911) voice capable networks by June 30<sup>th</sup>, 2020
- Establish real-time text (RTT) capability by December 31<sup>st</sup>, 2020
- Decommission all legacy 9-1-1 networks by June 30<sup>th</sup>, 2023

What this means for any Public Service Answering Point (PSAP) Centre in Ontario, is the current E911 is not scalable, is not designed for mobility and multimedia and is not flexible. The entire trunk system for our current E911 must be disabled and replaced by NG-911 by June 30<sup>th</sup>, 2023. This means the Municipality of Chatham-Kent as Primary PSAP Centre, the status quo of our operations can no longer continue as of 2023. The advantages of NG-911 are; increased accuracy on location of callers, additional intelligence for first responders, expanded collaboration and the ability to receive/store multimedia.

Resource planning, budgeting and a full review of our business assessments, gap analysis and transformation planning for NG-911 must begin immediately. In order to effectively navigate this transition Komutel is the recommended solution provider and equipment vendor who is engaged and an active stakeholder. This transition although gradual, will be intense for the next 1 to 5 years. Several internal stakeholders were consulted in regards to the use of Komutel, Information Technology Service from Municipality of Chatham-Kent, Chatham-Kent Fire Services and Chatham-Kent Police. All agreed Komutel will provide the best solution going forward for our NG 9-1-1 transition.

## Comments:

Komutel Incorporated brings the “best of breed” Call Handling Solution for the Primary and Backup PSAP sites. Komutel middleware and software is compatible with the existing E911 infrastructure, with an easy to deploy migration to NG9-1-1.

Komutel is the industry leader for 9-1-1 Call Handling Solutions in Canada. The 9-1-1 software solutions are dynamically bilingual (English / French based on user ID login). Proprietary Hexagon CAD interface jointly developed by Komutel and Hexagon to meet OPTIC (Ontario Police Technology Information Co-Operative) specifications. Komutel is the preferred vendor for OPTIC and currently serves 13 OPTIC agencies. Komutel software and hardware is deployed across Canada, serving the OPP, Canadian Coast Guard and Windsor Police, London Police and Sarnia Police to name just a few. Komutel is also a key stakeholder participating in the CRTC mandated NG Voice Trials with select Canadian PSAPs to finalize the NENA i3 specifications for Canada. The Komutel 9-1-1 solution suite includes 9-1-1 Softphones, 9-1-1 network integration, voice logging, reporting, unanswered call management, test call management and provides the most flexible architecture to integrate with existing PSAP systems.

Komutel will utilize an approach to the solution architecture, which provides the following advantages for the Chatham-Kent Police Service:

- Leverages existing infrastructure (servers, PC workstations, IT, etc.) to keep life cycle management under PSAP control
- Enhanced Security with the PSAP providing network connectivity, firewall, SQL database, servers and workstations
- All 9-1-1 and non-emergency line call handling data remains on PSAP provided servers
- Enables choices for Chatham-Kent Police Service regarding PBX, CAD and Voice Logging vendors
- Pre-NG to NG9-1-1 change management strategy is less disruptive for call takers
- Pre-NG building blocks (SQL database, 9-1-1 Softphones, resource directory, CAD and Voice Logger integration, etc.) are portable to NG9-1-1 eliminating duplication of effort for IT/telecom staff

The objective is to enhance the current Chatham-Kent Police Service PSAP E911 call handling capabilities and enable a smooth transition to NG9-1-1 as follows:

- Work with all PSAP ecosystem vendors to implement a “best of breed” Pre-NG solution that improves call-handling capabilities through business process automation by leveraging the existing E911 network.
- Prepare the infrastructure required for migration to a NENAi3 compatible IP PBX (SQL database, resource directory, VMWare, 9-1-1 Softphones, etc.)
- Implement an Unanswered Call Management Solution to efficiently deal with 9-1-1 calls that drop before connecting to the PSAP PBX.
- Introduce call takers to 9-1-1 Softphone technology that will be mandatory for NG9-1-1.
- Transition from E911 to NG9-1-1 (AQS to i3CI, SIT 911 to SIT 911i3 Softphones, 9-1-1 Trunks to ESInet)

As a Primary PSAP Centre it is vital that our organization prepare for NG 9-1-1, we must work with a solution provider who is engaged and a key stakeholder with NG 9-1-1. Komutel will provide

the necessary support and security to ensure we are NG 9-1-1 compliant by June of 2023. Komutel will provide support to leverage our current investments, increase and enhance our security, develop our IP 9-1-1 call handling functionality, provide an integration plan for CAD, radio and IT as well as assist in bringing about the progressive changes needed to be NG 9-1-1 compliant.

This report recommends that Komutel Incorporated be appointed as the vendor for our NG 9-1-1 transition, relying on the Sole Source Procurement By-Law #03-2016 which was adopted by Council on January 11, 2016. The Procurement Section 125 – Sole Source states the following: A direct Award of Contract may be used to purchase deliverables where there is only one supplier that provides the product. See below:

Komutel Incorporated is the only 9-1-1 Soft Phone vendor, specifically integrated with the Hexagon CAD interface configuration for OPTIC, and a developer partner relationship with Hexagon specific to the needs of OPTIC members. Komutel is also the only vendor who can provide a DevConnect developer partner relationship with Avaya. They are also the only vendor who provides: call logging, unanswered call management system (UCMS), telephone and radio headset integration, Agent 511 integration (API), all integrated into and supported by one common data base. Komutel is the only vendor that offers an integrated solution with DVDS CKPS communication log recorder. Further, Komutel is the only vendor that can supply CTIA kits and integrate the 911 Soft Phone with existing phones sets within our communication center.

In order to prepare for the Next Generation 9-1-1 services and transition, it is recommended that we partner with Komutel Incorporated at a total capital cost of \$149,587.04 and a yearly service contract of \$24,698.50. (See Appendix "A" for details)

## **Komutel Pre-NG Solution for Chatham-Kent Police Primary PSAP:**

- Qty of six (6) SIT 911 Softphones with Instant Recall Audio Player
- IP350G2-Pro Call Recording Server with RAID-6
- Unanswered Call Management System (UCMS)
- Redundant ALI Query Server Software (AQS)
- Komstat (RAP) 9-1-1 Call Handling Reporting Tool
- Komsync resource directory database synchronization tool

---

### **Project overview:**

Chatham-Kent Police Service has a requirement to provide CTI software to enhance the current CS1000 and M3905 telephony environment for call takers in the 9-1-1 Communications Centre.

The goal is to provide a smooth transition to NG9-1-1 by introducing call takers to softphone technology required in a NENA i3 PSAP environment. The Komutel 9-1-1 Softphones (CTI application) will also display ANI-ALI spill data for redundancy in case of a CAD outage.

### **9-1-1 Softphone (CTI) Solution:**

#### **Komutel SIT 911 Softphone (CTI) software is recommended with the following features:**

- Enhanced call handling via CTIA integration with Avaya M3905 telephone sets
- Ability to flag incoming call type and priority based on Skillset /CLID
- Touch screen compatible / keyboard and mouse operation
- Integrated real time ALI-ANI display with ability to flag T9-1-1 calls
- Document management with copy to call (Control + CC)
- Help request / chat between SIT 911 Operator Consoles
- Integrated web browser with dedicated URL (example: Agent 511)
- Large 9-1-1 transfer buttons (one touch link + downstream star codes)
- Configurable phone release reason code buttons
- Integrated directory with quick search and touch to dial
- Unlimited speed dial buttons and groups

Komutel ALI Query Server (AQS) middleware is required to connect to the current BID13 Version 16 environment.

#### **Komutel AQS features:**

- Enables ICLU, Auto ICLU and Reverse ALI in SIT 911 GUI
- Writes ALI data to SQL database
- Delivers real-time ALI data to SIT 911 Operator Consoles
- Compatible with BID13 Version 16 ANIALI and Hexagon CAD

### **Komutel Responsibilities:**

- Install, configure and test ALI Query Server (AQS) software
- Install and configure Unanswered Call Management System (UCMS) software
- Install and configure Komsync directory import (sources to be determined)
- Install and test Komstat reporting software
- Install configure and test IP350G2-Pro Call Recording Server and Komlog software
- Install SIT911 Softphone software on 6 PSAP workstations
- Test SIT911 Operator Console software and verify integration with CS 1000 PBX and AQS
- Configure SIT911 Operator Console GUI
- Provide on-site training for Chatham-Kent Police call takers and administrators
- Provide on-site technical shadowing for Chatham-Kent IT/telecom staff
- Provide one day of on-site post go live support

### **Chatham-Kent Police Service Responsibilities:**

- Provide connectivity to Bell 9-1-1 routers (BID13 Version 16 environment)
- Hardware or VMware servers, network connectivity and redundancy
- Rack space, power and connectivity for IP350G2-Pro Call Recording Server
- SQLServer licenses (redundant database servers recommended)
- PC workstations for SIT 911 Softphones and Komstat reporting tool
- Avaya M3905 telephone set for each SIT911 Operator Console
- Telephony system CDR port connectivity to AQS application
- Assign a single point of contact for the project
- Identify Chatham-Kent Police Service staff required to attend Komutel training sessions

### **IP350-G2 Pro Call Recording Server Specifications**

48 analog recording channels/24 digital recording channels

Expandable to a maximum of 96 conventional channels (analog, digital) and 128 VoIP channels

2U Chassis, Processor E5, 16 GB RAM/4 TB Hard Drive

Hardware RAID (RAID-1 upgraded to RAID-6)

Windows Server 2016

Redundant Power Supply

Standard Rack Mounting Kit and Rails

Komlog Software with unlimited users

1-year warranty for Hardware

## RECOMMENDATION FOR CHIEF'S COMMENDATION

To: D/Sgt. Keith Myers, Sgt. Steve Kloostra, Sgt. Shawn Mungar, Detective Constables Paul Brophy, Ken Lauzon, Cole Abbott, Rob Rose, Dam Hamilton, Rob Bowles, Gary Oriet, Tony Fasullo, Lori Timpson, Dan Hinds, Jeff Teetzel, Constables Jeff Bennett, Duane Agar and Steve Hubley.

### RE: Walter Ardis Homicide investigation – Thursday March 26, 2016

On Thursday March 26, 2016 at approximately 12:43 pm, Emergency Services responded to a house fire at the ARDIS residence. Upon arrival, the flames were clearly visible and the residence engulfed in flames. Firefighters entered the residence and located the victim deceased in the basement. The property was secured and the victim transported to London Health Sciences for a forensic autopsy.

The autopsy was completed and the cause of death was determined to be a gunshot wound to the back of the head and not related to the fire. As a result of learning this information investigators sought a judicial authorization to search the residence with the assistance of the Fire Marshal's office. The fire was determined to be an arson with three separate points of origin. An accelerant was located along with multiple firearms with one being a 6 shot revolver having 5 bullets and 1 empty casing in the cylinder. This firearm was later determined to be the firearm used in the commission of this offence. As a result of investigation it was determined that the accused shot the victim in the head and set the residence on fire to conceal the crime. As a result of this evidence the accused was arrested and charged with first degree murder.

On Tuesday September 20, 2016, the accused appeared in court where he was found to be "unfit" to stand trial. There was never any doubt or argument with respect to the facts of the case, nor who was ultimately responsible for Ms. ARDIS's death. Due to the manner in which the investigation was completed/organized and prepared, defence and prosecution were able to resolve this matter in the appropriate manner. The accused; was remanded to an appropriate medical facility to monitor his progress where his status was to be reviewed every 2 years. At the time of the writing of this commendation, the accused has passed away in a medical facility.

The efforts of the aforementioned officers played an integral role in the successful conclusion of this case. Their tireless dedication allowed for both the crown and defence to arrive at a mutually acceptable resolution. The penalty imposed was not only appropriate given the cognitive degeneration of the accused since the shooting, but also allowed closure for family members.

Subsequently as a result of your excellent team collaboration, judgement, perseverance and professionalism you are being recognized by way of a **Chief's Commendation**.

The award will be presented to you at the upcoming Police Services Board meeting to be held on Tuesday June 11, 2019 at the Chatham-Kent Police Service Headquarters at 10:00 am. I sincerely hope that you will be able to attend the meeting in order that you may be appropriately recognized at that time.

Well done!

Sincerely,

<b>Reference:</b>	<b>Chatham-Kent Police Services Board Public Safety Scholarship - Winners</b>
<b>Recommendation:</b>	<b>Receive the report and authorize monetary scholarship to award recipients</b>

**Overview:**

The Chatham-Kent Police Services Board invited students who were pursuing post-secondary education at a recognized institution in September of 2019 to submit a video addressing one of the three pillars of commitment to the community as stated by Chief Gary Conn in the 2018-2020 CKPS Business Plan.

**Summary:**

In an effort to raise awareness about social issues facing our community, the Chatham-Kent Police Services Board developed a Public Safety Scholarship.

This initiative was created to give graduating students the chance to creatively produce a video to help combat road safety concerns, address mental health or ways to reduce property crimes. Each one addressing one of the three pillars of commitment as stated above. The Scholarship encouraged our youth to discuss public safety concerns while also being part of the solution.

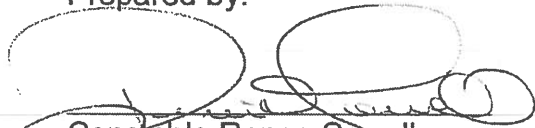

We would like to recognize Kayla Coates who submitted a video addressing Mental Health <https://www.youtube.com/watch?v=pP0xrgj-vNU> and Abbi Thompson who submitted a video addressing Road Safety <https://youtu.be/n8xFVIZUIrY>

Unfortunately, no one submitted a video regarding property crimes.

Each student will receive a \$1000 scholarship to put towards their post-secondary education in the Fall.

We wish to thank all submissions and hope to continue with this great community initiative.

## RECOMMENDATION FOR CHIEF'S COMMENDATION

To: Chatham-Kent Airport Manager Marion Smith and airport staff Ms. Missy Randall and Mr. Eric Dilliott.

### **RE: Community/Police Assistance – December, 2018**

In December of 2018, The Chatham Kent Police Service took delivery of the newly constructed and state of the art Mobile Command Centre. However, the designated indoor facility to house the Command Centre (Dillon Road Project.) was being constructed and scheduled to be completed in April of 2019. As such there was an urgency to find an appropriate location to house this new and costly Command Centre in Chatham Kent. The location needed to be centrally located and accessible 24/7/365 for rapid deployment. After researching locations and costs, it was suggested that perhaps the Chatham-Kent Airport could accommodate this request.

Subsequently, we spoke with Marion Smith, Airport Manager and explained to her our dilemma as well as our tight time lines. Marion was extremely accommodating and far exceeded our expectations in quickly coming to our aid. She advised that she would move things around in the main hangar to make room and would ensure that we had 24/7/365 access including keys to gates, doors and locks as well as alarm and door codes. The move into the hangar was seamless with the assistance of Eric and Missy, airport employees who also went above and beyond to assist.

Despite staying longer than intended, Marion and her staff were always understanding and always exceeded our expectations in ensuring that we had ample space and that the Command Centre was kept secure. Countless times the staff would assist in opening the gates and hangar doors and were available at a moment's notice when the Command Centre was needed.

As a result of your professionalism and dedication of service to the Chatham-Kent Police organization, you are being recognized by way of a **Chief's Commendation**.

The award will be presented to you at the upcoming Police Services Board meeting to be held on Tuesday June 11, 2019 at the Chatham-Kent Police Service Headquarters. I sincerely hope that you will be able to attend the meeting in order that you may be appropriately recognized at that time.

Well done!

Sincerely,

**Recommendation: Receive the report for information purposes**

**Summary:**

On May 13, 2018, a CKPS officer observed a male party riding a bicycle north on St. Clair Street in the company of a drunken female party. As the officer spoke to the female, the male started riding away faster than he had been travelling. The officer caught up to and stopped the male for a variety of Highway Traffic Act offences. When attempting to ascertain the name of the cyclists, the male provided two different names.

The officer believed he was being lied to about the identification of the cyclist, and went to arrest the male. The male threw his bicycle down into the path of a second officer who had arrived and he took off on foot, running away.

The first officer gave chase, caught the male a short distance away, and took him into custody. During the walk back to the police car, the male attempted on two separate occasions to break free, and run again. During the second attempt, the officer forced the male to the ground in order to control him and during the course of this action, the male hit his nose off the ground and broke it.

As a result of this injury, the Special Investigations Unit (SIU) were contacted to investigate the police interaction with the male in question. The SIU file number is SIU-18-OCI-143.

On May 23, 2019, the results of this investigation were sent to Chief Conn. This SIU clearance letter, by interim Director Joseph Martino, contained the following statement; "In my view, there were no grounds in the evidence to proceed with criminal charges against the subject officer."

A parallel investigation conducted by the CKPS Professional Standards Branch into the incident related to procedures and actions by the officer.

This investigation found no breaches of procedure and as a result, the officer will be facing no internal discipline.

Officer Andrew Craven exhibited good police investigative sense in speaking to the parties in the first place to ascertain their safety. Officer Craven quickly recognized the offences by the accused male and arrested him. This male was charged with a Breach of Recognizance (being outside after curfew) as well as two counts of Obstruct Police relating to the false name provided and Resisting Arrest. The injury sustained by the male party came about solely due to his own actions while in custody and in no way was an offence by the officer.

Re: CKPS-Citizen's Police Academy 2019

Dear Shawn and Ken,

What an experience!!! Hats off to both of you! I would like to take this time to thank you for allowing me the opportunity to participate in the 2019 Citizen's Police Academy. I would also like to thank the both of you for your continued commitment and support with delivering the Police Academy Program to residents of the Chatham Kent Community.

Having been able to participate in this year's program has been a positive and rewarding experience. Sitting and being able to listen to the presentations provided to us, and being able to ask questions has really opened my eyes to the many different aspects of what you and your colleagues go through during your career as a Police Officer. I think we all have gained a better understanding and respect for the position that you place yourselves in, each and every time you leave your house and family in order to protect both our community residents and our property. I thank you and your colleagues for this.

I enjoyed learning about the many services and the inter-departmental and agency teamwork that goes on behind the scenes on a daily basis. Learning how our community dollars are spent in order to provide a much needed service gave me huge insight into the tools you need to do your job. Having the ride along also was a positive experience. Thank you.

I know you put your heart and soul and many hours into creating and delivering the Citizen's Police Academy to make it an enjoyable, fun and interesting program. This year was no exception. This is very much appreciated. I hope that you are able to continue with the program for years to come.

I will be sending this letter to Chief Conn. He needs to know what a good job you both do and your commitment to a positive experience when in today's age, sometimes Police Officers receive a negative tone.

Again, thank you so much for this opportunity. Please remain safe.

Sincerely,

Dan Chauvin
